The Chemical Age

Index to V. II — January to June, 1945

A

Accidents, Co[illegible]
Acid-Resisting S[illegible]
Agricultural Weed-killer, 283
Alcohol, Industrial, 325
Alcohol from Wood Waste, 482
Alcohols, Dehydration of, 446
Alumina from Clay, 379
Aluminium Alloys, 128
Aluminium Alloys Bulletin, 406
Aluminium, Indian, 125
Aluminium Price Reduced, 194
American Metallurgical Survey, An, 126
American Newsletter, 382
American Patents, 503
American Products, New, 176
American Standards, 19
Analytical Chemistry, Recent Developments in, 560
Analytical Methods, 400
Applications of Science, 496
Argentine Sulphur, 574
Association of Tar Distillers, 331
Atmospheric Pollution, 444
Australian Shale Oil, 177

AUTHORS—

Arend, A. G., Selenium Recovery, 11; Chemical Products from Metal Works, 309; Modern Treatment of Manganese, 485
Cash, W. E., Solvents and Plasticisers, 77; Clee, A., Reflective Silver Coatings, 198; Creevey, J., Personal Safety in Handling Chemicals, 81; Hazards of Contact with Chemicals, 161; Boxed Glass Carboys, 246; Some Warnings from the 18th Century, 349; Common Accidents, 440; Illumination and Common Accidents, 521
Dudden, W. R., Nitric Oxide, 465
Embling, P. M. K., Producing Fuel Gases, 281
Foxwell, Dr. G. E., The Fuel and Carbonising Industries in 1944, 58
Gerrard, W. F., The Future of Lime-Soda Softening, 139; Green, G. Colman, Progress in Drugs, Fine Chemicals and Biological Products in 1944, 47, 97, 119, 157
Hancock, A. L., Boiler House Instruments and Automatic Control, 419; Howat, Dr. D. D., Magnesium Production, 237, 259; Raw Materials for Plastics and Synthetic Rubbers, 497, 515
Madeley, S. T., American Patents, 503; Mittler, S., German Patents after the War, 147
Neurath, Dr. F., Netherlands Chemical Industry, 5
Palethorpe, L. G. Whybrow, Zinc Plating from Cyanide Solutions, 201; Parrish, P., The Heavy Chemical Industry in 1944, 29; Pearson, B. M., Acid Resisting Steels, 15
Rathbone, R. D., Films and Chemistry, 217
Saville, Graham, Returned Empties by Rail, 179; Smith, Paul I., Thermoplastic Linings, 435; Steiner, L. A., Viscosity Temperature Curves, 361
Thornton, B. M., Mechanical Stokers for Low-Grade Fuels, 457; Triggs, W. Warren, Patents and the Public Interest, 303; Truman, H., Utilisation of Producer Gas, 281
Williams, A. E., Industrial Alcohol, 325; Withey, S. Howard, The Trend of War-Time Earnings, 266; Oil Company Finance, 380

B

Barytes, Irish, 550
Bauxite, Irish, 207
Binary Mixtures, Fractionation of, 222
Boiler House Instruments and Automatic Control, 419

BOOK REVIEWS—

Annual Reports on the Progress of Applied Chemistry (Society of Chemical Industry), 482
Colorimetric Analysis (Noel L. Allport), 184
Metallurgical Analysis by Means of the Spekker Absorptiometer (F. W. Haywood and A. A. R. Wood), 184
Organic Reagents for Organic Analysis (Hopkin and Williams), 324
Plastics and Industrial Design (John Gloag), 184
Time, Number and the Atom (R. Fortescue Pickard), 482

Brazilian Metals, 128
British Association of Chemists, 445
B.C.D.T.A. Annual Meeting, 439
B.C.D.T.A. Luncheon, 424
British Nylon, 207
British Standards Institution, 223
Building Research, 445

C

Carboys, Boxed Glass, 247
Carrageen, Hydrosol from, 574
Ceylon Kaolin, 551
Cheese-Melting Salts, 104
Chemical Apparatus, New, 9, 268
Chemical Controls, 550
Chemical Education, 221
Chemical Engineering, A Byway of, 345
Chemical Engineering Group, 462
Chemical Engineering School, 160
Chemical Engineers, 80
Chemical Preservation of Timber, 373
Chemical Products from Metal Works, 309
Chemical Society, The, 360
Chemical Stores Control, 402
Ciba Report for 1944, 443
Coal, Diphenylene Sulphide in, 401
Coal Gas and Crops, 105
Coating Material, New, 334
Colonial Development Plans, 306

COMPANY NEWS—

Adler, B., 211; African Explosives & Chemical Industries, 317; Alliance Colour & Chemical Co., 229; Allied Chemical Company, The, 229; Allied Chemical and Dye Corporation, 355; Aluminium, Ltd., 23; Aluminium Development Assoc., 577; Amalgamated Metal Corporation, 429; American Smelting and Refining Corporation, 385; Anchor Chemical Co., 210; Asbestos Corporation, 23; Aspro, 210; Associated Clay Industries, 355; Associated Plastics, 530; Atlantic Refining Co., 355

Ultramar Company, 410; United Glass Bottle Mfrs. Co., 294, 337; United Molasses Co., 385; United States Gypsum Co., 294; United Steel Companies, 210; United Turkey Red Company, 429; Universal Asbestos Mfng. Co., 90
Venezuelan Oil Concessions, 491; Viscose Development Co., 229
Worthington-Simpson, 252
Yorkshire Indigo, Scarlet and Colour Dyers, 229
Zinc Corporation, 229, 355
Constant Voltage Transformers, 363
Contact with Chemicals, Hazards of, 161

CONTROL ORDERS, NEW—

Antimony, 136
Benzol and Coal Spirit, 550; Bonding Materials Order Revoked, 502
Cadmium, 524; Cobalt Order Revoked, 550; Copper Wire, 206
Export Control, 524; Export Licensing, 19, 76, 185, 332
Fertilisers, 243; Fluorspar Order Revoked, 502
Iron and Steel, 19, 206; Iron and Steel Prices, 243
Machinery and Plant, 525
Nitric Acid and Industrial Ammonia Order Revoked, 574
Paint, Varnish and Lacquer Prices, 136; Plastics, 442
Road-Tar and Pitch Prices, 225; Rubber, 225
Toilet Preparations, 550
Zinc and Lead, 524

CORRESPONDENCE—

DDT (C. Gysin), 182; DDT and Gammexane (F. N. Pickett), 399, 505, (F. C. Hyman), 436, (S. Rogerson), 462, (G. A. Campbell and T. F. West), 523; DDT Patents (F. N. Pickett), 182
Economic Position of the Chemist (H. Hinks), 483; Extinguishing Phosphorus Fires (G. Harold Durston), 398
German Patents After the War (P. Abel), 182
Industrial Alcohol Production (G. Ullman), 398; (A. E. Williams), 399; Industrial Alcohol from Cellulose (G. Ullman), 17
Scientific Publicity (W. E. Dick), 144, (F. Kind), 165; Scientific Publicity and More (G. Ullman), 205; Spectroscopically Standardised Substances (F. Twyman), 483
